PART II - Data

This Parish Plan has been supported by Defra funding through the Local Area Agreement process; and by funding from North Cornwall District Council and St Kew Parish Council

Welcome to Part II of the St Kew Parish Plan

This part contains all questions and the results gathered from the Parish Questionnaire during late 2008 and collated early 2009. It is referred to by Part I and the two should be read in conjunction with each other.

The questions are exactly as they appeared in the questionnaire, with the same sections and layout. Some results however, have been brought together in section 4 . Community Facilities, with some results from section 5 . Recreation and Leisure, and section 6 . Children and Young People.

Where possible, we have included all data, but many comments have been excluded, mainly for the sake of brevity, but also for the fact that some of them are of a personal nature.

These comments have been collated and will be distributed to all interested parties on a need to know basis. If any interested party wishes to view any part or parts of the data not listed here, please contact either the St Kew Parish Plan committee or St Kew Parish Council on www.stkewparish.org.uk
